

The A2 Wind Tunnel Gift Certificate

The CCTTA is very pleased to continue our relationship with the great folks at the A2 Wind Tunnel www.a2wt.com. We are extremely fortunate to have such a world class facility with very knowledgeable people right in our backyard. A2 has the ability to take all the guesswork out of what bike position and equipment will help a rider go faster while putting out the same wattage. By having the best aerodynamic profile, riders can shave valuable seconds off their times.

A2 has again provided the CCTTA with an hour's worth of tunnel time that has a value of several hundred dollars that we can share with one of our participants. For 2010, we plan to offer A2's generous gift to one of our Series participants.

The A2 gift certificate will go to a rider at the end of the season that finishes 2nd in their category for the 2010 series. The 2nd place finisher has more motivation to improve his or her time than anyone else! The specific winner will be selected from the group of 2nd place category finishers and will be notified after the last event.

The Truth is on the Track!
